GENERAL INDEX 43

PREFACE.

THE general arrangement of this *Index to Volumes XVII–XXXII* of the *Annual* is in accord with that of the *Index to Volumes I–XVI*. But it is hoped that by closer adherence to the same principles, its utility has been increased. Variations of spelling are in accord with the usage of authors.

The compilation of this *Index* was originally entrusted to Mrs. Culley, but she was compelled by ill-health to resign the task, and the general section is essentially the work of Miss Dorothy M. Vaughan M.A. (Liverpool). The *Epigraphical Index*, Sections II and V were drafted by Mr. A. M. Woodward, and owe much also to the collaboration of Mr. M. N. Tod.

To all these the Managing Committee tenders its cordial thanks.

JOHN L. MYRES,

Chairman of the Managing Committee.

IV.—TABLE OF PUBLICATIONS QUOTED.

References in black type signify that the inscription referred to is either quoted in full, or to some extent emended, on the page in question. The difficulty of dealing with inscriptions which are repeated in several publications without having recourse to extensive repetition of the same entry under different headings, has been met by the use of cross-references. If it has not always been possible to employ a completely consistent method in their use, the first aim has been to avoid obscurity. In regard to texts published in *Inscriptiones Graecae* and again in *I.G. Editio Minor* (as far as it has appeared, to date), the corresponding numbers are added in brackets according as the former or the latter edition is referred to; and the same practice (but omitting brackets) has been followed in the references to the 2nd and 3rd editions of Dittenberger's *Sylloge*.
